

WHAT IS YOUR STORY?

In order for our rental department to process your application with a better understanding of your situation, please take the time to answer these few simple questions. This will assist us and the owners in making an informed decision on the outcome of your application. The more information you provide the better.

Why are you looking to rent a property?

Why have you chosen to apply for this rental property?

If multiple applicants (more than 1 person applying for the property), what is the relationship between applicants and how long have you known each other?

Although most owners are offering 6 or 12 month leases initially, how long do you anticipate you would like to rent the property for? Are you only interested in a 6 or 12 month lease or could you see yourself staying longer?

Is there anything else you would like to tell us that you believe could assist the owner in approving your application?
