# PATHWAYS TO HOME

*This artwork represents the Noongar lands on which communities live, grow, and gather. Pathways connect homes, families, and neighbourhoods across Boodja (Country), acknowledging the enduring connection of Noongar people to Boodja. Places of belonging, where stories are shared, relationships are formed, and future generations are nurtured.*

*The design reflects the journey of finding home and the importance of community, respect, and connection to place. A house becomes a home through connection—to family, community, culture, and Country.*
