We appreciate that in the majority of cases, the above items will be automatically attended to, but in the rush to vacate some things are overlooked.

If your theory is that the property was not clean when you moved in, just remember that you have lived there for the past lease. Also you have signed the Tenancy Agreement which states, *"The Tenant shall keep the Premises in a clean and sanitary condition and free from dirt, oils, grease, insects, and vermin."* (2.12)

Please remember that it is no benefit to us to keep our tenant's bond monies.

Thank you for your co-operation in the above and if you have any further queries please do not hesitate to contact your Property Manager.
