

David Gargaro

Subject: 193 Brunswick Street, Fitzroy

I have used the services of DGI Properties Rael Estate and in particular David Gargaro for the recent sale of a family commercial property.

I found David to be both highly professional and very courteous during a most difficult sale which involved legal and council issues. David showed tremendous drive and understanding with ongoing consultation and feedback during the sale process. I was particularly impressed with his passionate commitment to obtain the best result for our family as well as his patience and understanding throughout the course of the sale. David was in constant contact with myself and provided timely updates through-out the sale process and was willing to allow myself and family time to consider options without feeling pressured. David allowed us time to weigh up options and to feel comfortable with arriving at a decision that would be in our best interest.

I would highly recommend David of DGI Properties to anyone wishing to sell their property because of the professional and compassionate qualities he displayed in achieving a wonderful result for myself and family.
