Consolidated By-Laws

A. About the By-Laws

Purpose of the By-Laws

The by-laws regulate the day-to-day management and operation of the Building. They are an essential document for the Owners Corporation and everyone who owns or occupies a Lot.

Who must comply with the By-Laws?

Owners and Occupiers must comply with the by-laws. The Owners Corporation must comply with the by-laws.

B. Exclusive Use By-Laws (if any)

Purpose of the Exclusive Use By-Laws

To more fairly apportion the costs for maintaining, repairing and replacing common property, the Exclusive Use By-Laws make Owners responsible for the common property of which they exclusively use or have the benefit.

Interpreting this Section

In this by-law, “you”, means an Owner who has the benefit of an Exclusive Use By-Law.

How to Change an Exclusive Use By-Law

The Owners Corporation may, by special resolution:

- (a) create, amend or cancel an Exclusive Use By-Law with the written consent of each Owner who benefits (or will benefit) from the Exclusive Use By-Law; and
- (b) amend or cancel this by-law only with the written consent of each Owner who benefits from an Exclusive Use By-Law.

Occupiers may Exercise Rights

You may allow another Owner or an Occupier to exercise your rights under an Exclusive Use By-Law. However, you remain responsible to the Owners Corporation and, where appropriate, Government Agencies to comply with your obligations under the Exclusive Use By-Law.

Regular Accounts for your Costs

If you are required under an Exclusive Use By-Law to contribute towards the costs of the Owners Corporation, the Owners Corporation must give you regular accounts of the amounts you owe. The Owners Corporation may:

- (a) include those amounts in notices for your Administrative Fund or Capital Works Fund contributions; and
- (b) require you to pay those amounts in advance and quarterly (or for other periods reasonably determined by the Owners Corporation).

Repairing Damage

You must repair damage you cause (or someone acting on your behalf causes) to common property or the property of another Owner or Occupier when exercising your rights or complying with your obligations under an Exclusive Use By-Law.

Indemnities

You indemnify the Owners Corporation against all claims and liability caused by exercising your rights or complying with your obligations under an Exclusive Use By-Law

Additional Insurances

In addition to your obligations under By-Law 15, you must reimburse the Owners Corporation for any increased premium for its insurance policies caused by exercising your rights or performing your obligations under an Exclusive Use By-Law.

USE OF LOTS

1. Residential Use

1.1 Residential Lots can only be used by Owners or Occupiers as follows:

 - (c) all reasonable endeavours are taken to ensure compliance with By-Law 1; and

consultant to be nominated by the Strata Committee; and

The acoustic report must be completed within 30 days of the completion of the flooring installation.

An Owner must not alter the structure of a Lot without giving to the Owners Corporation at least 14 days notice.

transporting tools or machinery and other objects through common property.

14. Structural Support in the Building

- 14.1 An Owner or Occupier must not carry out any alteration to any part of the Building which renders structural support to any other part of the Building without first submitting copies of all relevant plans and approvals to the Owners Corporation and obtaining the written permission of the Owners Corporation to the proposed alteration. The consent of any competent authority must also be obtained for the alteration and any works approved by the Owners Corporation must be carried out in accordance with the conditions imposed by the consent authority and the Owners Corporation.
- 14.2 The Owners Corporation may delegate the granting of consent under this by-law to the Strata Committee.

15. Change in Use of Lot to be Notified

- 15.1 An Occupier of a Lot must notify the Owners Corporation if the Occupier changes the existing use of the Lot in a way that may affect the insurance premiums for the strata scheme (for example, if the change of use results in a hazardous activity being carried out on the Lot, or results in the Lot being used for commercial or industrial purposes rather than residential purposes).
- 15.2 Nothing in this by-law should be construed as authorising any Owner or Occupier of any Lot to change the use of his or her Lot. Any change of use of a Lot must comply with the relevant Council zoning or codes and if Council consent is required for any change of use, consent must be obtained and a copy of the Council consent must be furnished to the Owners Corporation.
- 15.3 The Owners Corporation may delegate the granting of its consent under this by-law to the Strata Committee.

16. Storage of Inflammable Liquids and Other Substances and Materials

17. Security Keys

- 17.3 The maximum number of Security Keys to be provided pursuant to By-Law 17.2 is two keys plus two keys for every bedroom in a lot.
- 17.4 The Security Keys provided to persons under By-Law 17.2 need only provide access to the parts of the Building which those persons are entitled to access.
- 17.5 The Strata Committee may charge a reasonable fee for a Security Key required by an Owner of a Lot and retain a bond/deposit in relation to issue of Security Keys.
- 17.6 An Owner of a Lot must exercise a high degree of caution and responsibility in making a Security Key available for use by any Occupier of a Lot and must use all reasonable endeavours including an appropriate stipulation in any lease or licence of a Lot to the Occupier to ensure the return of the Security Key to the Owner or the Strata Committee.
- 17.7 A person to whom a Security Key is made available must:
 - (a) not duplicate or copy the Security Key;
 - (b) immediately notify the Strata Committee if the Security Key is lost, stolen or misplaced;

18. Signage

- 18.1 Owners or Occupiers must not, without the consent of the Strata Committee, erect flags, banners, advertising or other signs on or within the Lots, including courtyards that are visible from outside the Building. This restriction includes, without limitation, signs that advertise that the Lot is for sale or available for lease.
- 18.2 The Strata committee may require Owners or Occupiers of Lots to take down any Sign servicing their Lots that is unauthorised or does not comply with this By-Law or any other condition imposed by the Strata Committee. If any direction by the Strata Committee to remove a sign is breached or ignored by the Owner or Occupier, the Strata Committee may remove or procure the removal of the offending sign at the cost of the relevant Owner or Occupier.

19. Electrical

Owners or Occupiers must not overload the electrical facilities provided to their Lots. If overloading occurs, all costs associated with repairs to the Lot or the Building are the sole responsibility of the party causing the overload.

20. Integrity of Fire Systems

- 20.1 Owners and Occupiers must not interfere with or damage any fire safety device or equipment nor activate any device except in the case of emergency or where there is risk of damage or injury to the parcel or any person within the parcel.

20.2 Owners and Occupiers must:

- (a) immediately notify the Owners Corporation of defective, damaged or malfunctioning fire safety devices or equipment;
- (b) immediately notify a fire protection agency or the Fire Brigade if there is any fire or similar hazard within the parcel;
- (c) promptly notify the Owners Corporation of a risk or fire hazard within the parcel;
- (d) must not change the type of lock installed on the front door to any Lot nor add any additional lock, door closer or peep hole to the front door, except in accordance with By-Law 42.3. This is because, for fire safety access reasons, all doors in the Building must have similar locking devices;
- (e) notify the Owners Corporation before changing any lock to any other door in a Lot or adding additional locking devices to any other door in a Lot;
- (f) on receiving notice from the Owners Corporation that an inspection is required, provide access to the Lot to the Owners Corporation (or any appointed agent or inspector) for the purpose of inspecting, testing, repairing or replacing any fire safety devices or equipment.
- (g) allow annual access to the Lot by a person nominated by the Owners Corporation for the purposes of annual fire safety inspections of the Lot.

20.3 Despite the provisions of this by-law, Owners and Occupiers are at all times responsible for the proper maintenance, servicing and repair of any smoke detectors located within their Lots.

20.4 If Owners or Occupiers breach this by-law, the Owners Corporation has the right to enter into any Lot to repair or rectify any breach and to recover the cost of doing so as a debt against the Owner.

20.5 If any Owner or Occupier activates any alarm within his or her Lot or on common property which is a false alarm (whether this was done deliberately, accidentally or negligently), the Owners Corporation is entitled to recover the cost of attending to the alarm as debt against the Owner.

20.6 The Owners Corporation is entitled to delegate any of its powers under this by-law to the Executive Committee or to any other relevant person or entity (e.g. caretakers, building managers or concierges).

21. Storage Spaces

21.1 Storage spaces are located in a sprinkled basement. Owners and Occupiers store items in storage spaces at their own risk.

21.2 As storage areas may be located in basement areas, these areas may be subject to wetting. Therefore Owners and Occupiers should not store items directly on the floor or directly against walls.

21.3 The Owners Corporation and each Owner or Occupier must ensure that the Sprinkler Area is always kept clear in accordance with AS2118 as amended or replaced from time to time. Should Owners or Occupiers fail to keep the Sprinkler Area clear as

required, the Owners Corporation has the right without notice to enter the Lot and, at the cost of the Owner, move and store items to ensure compliance with this by-law.

- 21.4 Also, the storage spaces are designed to facilitate airflow and should not be sealed or tightly curtained.
- 21.5 Items in storage cages should not be stored to ceiling height so as to interfere with sprinkler heads and should be stored away from any existing motorised dampers and exhaust vents.
- 21.6 Owners or Occupiers must not store anything flammable, explosive, dangerous or perishable within a storage space.
- 21.7 Owners or Occupiers must allow access on or through their storage space by a person nominated by the Owners Corporation for the purposes of repair, maintenance, and or testing of any building system including but not limited to sprinklers, motorised dampers and exhaust vents and repairs and maintenance to plenum areas.

BALCONIES AND COURTYARDS

22. Drying of Laundry Items

An Owner or Occupier of a Lot must not hang any washing, towel, bedding, clothing or other article on any part of the parcel in such a way as to be visible from outside the Building.

23. Appearance of Lot and Balcony

The Owner or Occupier of a Lot must not store or display any item in a Lot or on a balcony which is visible from outside the Lot that, when viewed from outside the Lot, is not in keeping with the rest of the Building.

24. Balconies/Courtyards/Ground Level Planters

- 24.1 Balconies/courtyards within the Building are not to be enclosed by any screens, blinds, wind-breaks, wind or sunscreens or similar structures located on or within the balcony areas or fixed to the outside face of the balconies/doors/windows without the written consent of the Owners Corporation and the Council. This by-law does not cover any screens, blinds, windbreaks, wind or sunscreens or similar structures that were installed by the Original Owner as permitted by the Development Approval.

55.13 The indemnity provided by the Lot 112 Owners under By-Law 55.12 will not exceed \$20 million per event and in the aggregate.

Special By-Law 9 – Management of Electronic and Personal Mobility Devices

1 Background

For owners and occupiers, Lithium-ion batteries used in Personal Mobility Devices such as e-scooters, e-bikes, and similar devices carry a significant fire risk. It has been identified by the Owners Corporation Network (OCN) that the risks are related to a number of factors such as:

- unsafe charging practices;

- use of incompatible chargers or overcharging batteries is a risk factor;
- there may be charging risks where there is no battery management system to protect against overcharging, or where incompatible charging equipment is used, or devices are overcharged;
- repurposed, modified or customised battery applications; and
- hazards may arise when products with Lithium-ion batteries are repurposed or modified. This includes DIY retrofitted and second-life battery applications.

According to the OCN, steps consumers can take to reduce the likelihood of charging related incidents include:

- ensure the charger is suitable for the battery in the product being charged;
- monitor charging times of Lithium-ion battery products and disconnect products from chargers once they are fully charged (consider setting timers as a reminder to unplug devices);
- do not use batteries or devices if products are overheating or showing signs of failure such as swelling, leaking or venting gas. In these cases, place leaking or damaged batteries in a clear plastic bag (after they have cooled down) and contact your local council for disposal options;
- charge batteries and devices away from combustible materials (such as beds, sofas or carpet);
- store batteries and Lithium-ion battery products such as e-scooters in cool, dry places and out of direct sunlight, including while charging; and
- allow time for batteries to cool down after use and before recharging.

This by-law was developed for Chevalier based on a template by-law recommended by the OCN.

3 Electronic Devices and Personal Mobility Devices

3.1 Electronic Devices

- (a) In the interests of fire safety, an Owner or Occupier who keeps an Electronic Device in the Scheme must not:
 - (i) modify the Electronic Device’s Battery in any way; nor
 - (ii) replace the Electronic Device’s Battery with any different Battery type not recommended by the manufacturer of the Electronic Device; nor
 - (iii) install in the Electronic Device any additional Battery or a reconditioned Battery or a more powerful Battery than the original Battery recommended by the manufacturer for the particular Electronic Device; nor
 - (iv) overcharge any Electronic Device; nor
 - (v) use, store or charge the Electronic Device in a manner that is not compliant with the manufacturer’s instructions; nor
 - (vi) dispose of any Battery in the general waste receptacles, recycling waste receptacles, green waste receptacles of the Scheme or in any other waste receptacles anywhere in the building not designated clearly for Battery disposal.
- (b) In further interests of fire safety, an Owner or Occupier who keeps an Electronic Device in the Scheme must dispose of all Batteries safely according to the Rules.

3.2 Personal Mobility Devices

- (a) Personal Mobility Devices have a higher fire risk when compared with most other battery powered devices, particularly poorer quality cheap variants. To minimise the risk of harm to Owners and Occupiers:
 - (i) only Personal Mobility Devices with a recognised regulatory compliance mark are permitted within the Scheme; and
 - (ii) damaged Personal Mobility Devices promptly should be repaired by an authorized dealer and must not be brought into the Scheme until repaired; and
 - (iii) Owners and Occupiers must observe at all times the Rules developed and displayed by the Strata Committee on behalf of the owners corporation.

- (b) In the interests of fire safety at the Scheme an Owner or Occupier who keeps or otherwise houses or uses a Personal Mobility Device in the Scheme (even on a temporary basis) must store or charge the Personal Mobility Device's Battery in that Owner's or Occupier's Lot when that Personal Mobility Device is not in use and must not:
 - (i) store or charge the Personal Mobility Device's Battery in or on Common Property except with the prior written approval of the owners corporation and then subject to such conditions the owners corporation may consider reasonably necessary so to ensure fire safety at all times, including that storing or charging occurs in a designated area of the Common Property approved by the owners corporation for such purposes, and/or that charging of such Battery be undertaken whilst supervised at all times by the Owner or Occupier; nor
 - (ii) modify the Personal Mobility Device's Battery in any way; nor
 - (iii) replace the Personal Mobility Device's Battery with any different Battery type not recommended by the manufacturer of the Personal Mobility Device; nor
 - (iv) install in the Personal Mobility Device any additional Battery or reconditioned Battery or a more powerful Battery than the original Battery recommended by the manufacturer for the particular Personal Mobility Device; nor
 - (v) overcharge any Personal Mobility Device or leave the charging Personal Mobility Device unsupervised; nor
 - (vi) dispose of any Battery in the general waste receptacles, recycling waste receptacles, green waste receptacles of the Scheme or in any other waste receptacles anywhere in the building not designated clearly for Battery disposal.
- (c) In the further interests of fire safety an Owner or Occupier who keeps a Personal Mobility Device in the Scheme must:
 - (i) register each Personal Mobility Device with the Building Manager within 24 hours of bringing the Personal Mobility Device into the common area or onto a lot for the first time, or on the next business day;
 - (ii) consent to access to a Lot by the Building Manager on reasonable notice, except in the case of an emergency, if required to address any potential safety concern;
 - (iii) if there is an emergency access to a Lot may be gained immediately by whatever means necessary by the Building Manager;

 - (v) dispose of all Batteries safely according to the Rules.

4 Call-outs

- 4.1 The owners corporation must take reasonable steps to prevent fires and other hazards

at the Scheme.

- 4.2 Where fire safety equipment or human error has triggered an alarm or suspected emergency in relation to a particular Lot, and
- (a) a Call-out has occurred; and
 - (b) the fire safety equipment at the Scheme has not malfunctioned and it is not a false alarm; and
 - (c) the owners corporation is charged for the Call-out,

the Owner is liable for any charges (including fines) associated with that Call-out.

5 Liability and Indemnity

- 5.1 Owners and Occupiers remain solely responsible for any fines or penalties imposed on them by any relevant Governmental Agency for failure to comply with its recommendations regarding Batteries and must indemnify the owners corporation from all claims, losses, expenses and costs incurred or damage to property or person suffered arising from:
- (a) failure to comply with Governmental Agency requirements and from failure to comply with the provisions of this by-law; and
 - (b) the exercise of the owners corporation's rights and duties under this by-law and must pay the costs as a debt due and payable on demand.
- 5.2 Owners and Occupiers are liable for any damage to the common property in the Scheme and/or a Lot and for loss or damage to personal property suffered as a result of their breach of this by-law.
- 5.3 Owners and Occupiers are liable for any injury to persons or pets in the Scheme suffered as a result of their breach of this by-law.
- 5.4 Owners and Occupiers must indemnify the owners corporation against all claims and any actions, demands or expenses including legal and administrative expenses incurred in relation to charges referred to in this by-law.
- 5.5 Owners and Occupiers must indemnify the owners corporation against all and any claims, actions, demands or expenses including legal and administrative expenses incurred in relation to:
- (a) the exercise of its rights under this by-law; and
 - (b) enforcement of this by-law.
- 5.6 This by-law confers on the owners corporation the following additional functions, powers, authorities and duties:
- (a) the function to preserve and monitor fire safety at the Scheme;
 - (b) the power to regulate keeping and disposal of Batteries and Personal Mobility Devices;
 - (c) the authority to issue a notice to the relevant Owner or Occupier if it is reasonably

suspected that a Personal Mobility Device and/or Battery is being kept or housed in contravention of this by-law; and

- (d) the duty to prosecute the Owner or Occupier for breach of this by-law in a court of competent jurisdiction and seek all costs (including legal costs) associated with judgment against the relevant Owner or Occupier.
