Quality remained very good across this week's yarding, with McDonald Lawson Carter offering 905 head. Buyer attendance remained strong, with processors, feeders and restockers all competing in a noticeably dearer market across most categories.

Prime vealers were again a highlight, with strong competition from restocker and feeder buyers pushing prices higher. Vealer steers sold to a top of 565.2c/kg, while Angus vealer steers averaged 546.0c/kg, showing a further improvement on the previous sale. Vealer heifers also

continued the upward trend, with better bred lines regularly selling between 470–500c/kg and topping at 508.0c/kg.

Yearling cattle remained the feature of the sale, with excellent competition across all feeder categories. Angus yearling steers sold to a top of 562.2c/kg and averaged 534.7c/kg, while several supplementary-fed and well-bred lines attracted extremely strong feedlot demand. Crossbred and Euro steers also sold to stronger rates, with many categories lifting a further 10–20c/kg on the previous sale. Yearling heifers continued to improve, with Angus heifers averaging 482.8c/kg and numerous sales exceeding 500c/kg. Well-finished Charolais and Limousin heifers were particularly well supported by feeders.

Cow numbers increased substantially this week and quality remained very good overall. Heavy cows sold into a very strong processor market, with several categories improving again on recent sales. Santa cross cows sold to 408.2c/kg, while Angus cross cows averaged 368.6c/kg. Most well-finished heavy cows sold between 340–400c/kg, reflecting continued strong export processor demand.

Heavy bulls remained firm to dearer with Angus and Angus cross bulls selling above 400c/kg.

Overall, the market continued its strong upward momentum, driven by good rain over the state and local area, and a quality offering.
